Our History

Where does the name come from?

Our story begins in Chicago, 1932, when Paul Angell had an interesting idea to combine chocolate cake and vanilla ice cream. The result of this "marriage" was the Ice Cream Cake Roll, essentially a sponge cake that could be rolled with ice cream without splitting. This created America's first specialty ice cream dessert, and was the beginning of Newly Weds Foods.

The foresight and innovation shown by Paul Angell continued and in the early 1950's Newly Weds Foods was one of the first companies to devote its energies to developing coating systems and seasonings for the emerging processed food market. By the mid 1950's, Newly Weds Foods was in full production of batters and breaders for the frozen seafood, meat and poultry industries.

From these humble beginnings Newly Weds Foods has become a global ingredients supplier to the food industry with manufacturing and Research & Development facilities across the globe.

At the initiative of Charles Angell, son of the original founder, Newly Weds Foods commenced operations in Australia in 1983. Pioneering the introduction of Japanese Style Breadcrumbs in Australia, the plant at Wetherill Park has expanded over the years to produce a complimentary range of coating systems and meat seasonings, soups, sauces and spice blends suitable for the Australian & New Zealand Food Service market.

As part of Newly Weds Foods Asia Pacific, we not only have two manufacturing facilities in Australia along with a Culinary Centre and R&D centre for the development of new products. We have two manufacturing facilities in Auckland New Zealand as well. The affiliated resources of our operations in the Thailand, Philippines, UK, Europe, China, USA and Canada are also available to support our local operations.

With our dedicated sales teams, we look forward to working with our distributors across Australia and New Zealand to forge mutually beneficial relationships.

Batters and Breadings

Premium Batter

Clean, crisp flavour with excellent seal and low oil uptake to save and protect your cooking oil.

INSTRUCTIONS FOR USE:

1. Pre-Dust: Start with Newly Weds Foods Premium Batter to provide a good binding surface on the protein. This will help with a more uniform appearance and texture.
2. Wet Mix: Mix the Premium batter mix with 1 part dry and 1.2 parts chilled water.
3. Coating: Dip protein into batter and the allow excess to run off before placing in fryer and cooking

INGREDIENTS:

Wheat Flour, Wheat Starch, Mineral Salts (500, 450, 541), Emulsifier (322 (Soy)), Vegetable Shortening (Palm (Soy)), Milk Powder, Salt, Flavour Enhancer (621), Acidity Regulator (330), Colours (102, 110).

ALLERGENS: Wheat, Soy, Milk.

FS Adhesion Batter

Adheres crumb to food to keep moisture in and cooking oil clean. More cost effective than flour dust/egg wash method.

INSTRUCTIONS FOR USE:

1. Pre-dust: Start with Newly Weds Foods Foodservice Adhesion Batter which provides a good binding surface to which breadcrumbs can attach. This will have a more uniform coating, improved appearance and texture.
2. Wet Mix: Mix the adhesion Batter Pre Mix with water (1 part batter mix to 1.7 parts water) and apply over the pre-dusted protein to act as a "glue" for the breadcrumb to adhere to the protein.
3. Coating: We recommend the "lift and shake" method for a light even coating. Avoid patting down the crumb. Try with Newly Weds Foods Panko breadcrumb for an unbeatable crisp finish or Executive Chef TLC for a more traditional style.

INGREDIENTS:

Wheat Flour, Thickener (1404), Mineral Salts (500, 541, 450), Salt, Soy Flour, Emulsifier (322 (Soy)).

ALLERGENS: Wheat, Soy.
